

National Science Foundation

Graduate Research Fellowship Program

Are you a student in a science, technology, engineering, or mathematics (STEM) field? Are you looking for graduate school funding opportunities? Consider attending our information session on the National Science Foundation Graduate Research Fellowship Program (NSF GRFP).

This program provides fellowships for graduate study that is in a field within NSF's mission and leads to a research-based master's or doctoral degree. Undergraduate seniors, first-year and second-year graduate students are all eligible to apply.

Fellowship Benefits

Annual stipend: \$34,000 for each of 3 years

- Cost of Education allowance to the institution: \$12,000 for each of 3 years (tuition, fees, etc.)
- International research and professional development opportunities
- XSEDE supercomputer access for Fellows and honorable mentions
- No service requirement

Eligibility Requirements

Undergraduate seniors, first, and second-year graduate students are eligible. Applicants must be US citizens, nationals, or permanent residents.

NSF-supported fields of study include:

- Chemistry
- Engineering
- Geosciences
- Life Sciences
- Science, Technology, Eng. & Math (STEM) Education & Learning Research
- Materials Research
- Mathematical Sciences
- Physics and Astronomy
- Social, Behavioral & Economic Sciences

Application Workshop Schedule

Wednesday, August 31

Components of a Strong Application: Advice from Past Recipients

Wednesday, October 5

Refining your Application: A Hands-On Workshop.

ALL WORKSHOPS | 5:00-6:30 pm | TILT Room 221
Refreshments Provided
