

INTERNATIONAL CREDENTIAL GUIDEBOOK

2006/updated 11/2017

Guidelines for Colorado State University faculty and staff to assist in the evaluation and recognition of degrees awarded worldwide. These Guidelines are solely for Colorado State University.

Following are guidelines for interpreting foreign educational credentials for the placement of holders of these credentials into Colorado State graduate programs. These are GENERAL guidelines for admission and placement based on institutional policies, placement recommendations from NAFSA (Association of International Educators), prevailing opinion from colleagues at similar universities and experience of credential evaluators.

DISCLAIMER

These recommendations are not directives or judgments about the quality of programs and schools. They are an attempt to apply the same standards for a foreign applicant as for a U. S. applicant with a similar educational background. Please remember that educational systems change quickly and every endeavor will be made to keep this article current.

SOURCESⁱⁱⁱ

Information has been compiled (and “tweaked” to fit Colorado State University guidelines), from a variety of sources including: (1) World Education Series (WES) publications from AACRAO, (2) Projects in International Education Research (PIER) papers and publications, from AACRAO and NAFSA, (3) International Credential Guide from New York University, compiled by Joseph Sevigny and Vvette Blanco. 1998 edition. This International Guide was used as a model.

HOW TO USE THIS INFORMATION

Language: This guidebook gives the languages of the country. A separate list has been compiled and given to departments stating which applicants presently can be considered for exemption from taking the TOEFL (Test of English as a Foreign Language) test.

Degrees: Degrees listed are not all the degrees offered, they are degrees most often procured by the applicants applying to this university.

Grading: In general, the minimum acceptable grade for an applicant would be the U.S. equivalent of B or better grade. This recommendation is listed separately for each country and would be for admitting “non-provisionally” (GPA considered 3.0 or higher).

Recommendations: State the minimum required for entering a graduate degree program at Colorado State University.

Universities: This lists just a few Universities that are “recognized/accredited” by a specific authorized government body of that particular country, e.g., Ministry of Education.

**** Some Countries may only list the grading scale****

AFGHANISTAN – Dawlat Islami Afghanistan

Language – Pashto, Dari (Afghan Persian)

Educational System: foreign dominated to Islamic-based system

Degrees: Various diplomas awarded from teacher training colleges

Bachelor’s degree – first university degree, awarded after 4-5 years of tertiary study, can also be known as a Leicanc or Licence.

Doctor of Veterinary Medicine – awarded after 5 years of tertiary study

Master’s degree – awarded after six years of tertiary study

Doctor of Medicine (Doctor) – awarded after six years of post-secondary education and one year of internship.

Doctor of Philosophy – awarded after seven years of tertiary study.

Grading	U.S. Equivalent	Numerical	U.S. Equivalent
90-100	A	9.0-10.0	A
80-89	B	8.0-8.9	B
55-79	C	5.0-7.9	C
40-54	C-	3.6-4.9	D
0-39	F	Below 3.5	F

Grades of 8.0 or 80% or better would be considered “B or better” grade.

Recommendations and Comments

War has caused considerable changes in the educational system. Afghani academic credentials should be reviewed carefully for time frame issued. A minimum 4-years tertiary education required.

Universities: This lists just a few Universities that are “recognized/accredited” by a specific authorized government body of that particular country, e.g., Ministry of Education.

University of Kabul
Balkh University
Heart University

Note: The University of Peradeniya Bachelor of Science Agriculture is a 4-year degree.

ALBANIA – Republic of Albania

Language – Albanian

Educational System – Ministry of Higher Education and Research

Degrees: Diploma of Teacher, a 3-year program, Diplome with Titull requiring the Certificate of Maturity for admission, a 4-6 year program, Diplome of Advanced Studies (replaced the Kandidat), 3 years beyond the Diplome with Titull, Doktor awarded based on dissertation representing advanced research and publications with admission based on Diploma of Advanced Studies.

The Arabian Gulf University is in most areas of study, on a 5-point system. To figure the GPA on a 5-point system, take the cumulative GPA x 4 and divide it by 5. This will give you the GPA on a 4-point system.

Recommendations and Comments

Holders of bachelor’s degrees may be considered for graduate admission. The degree of medical doctor may be considered for graduate admission and may be considered comparable to a first professional degree in medicine in the U.S. The postgraduate diploma in education represents one year of graduate coursework and possible graduate credit. The Master of Education in Science may be considered comparable to a U.S. master’s degree if a minimum of 2 years.

Universities: This lists just a few Universities that are “recognized/accredited” by a specific authorized government body of that particular country, e.g., Ministry of Education.

BANGLADESH – People’s Republic of Bangladesh

Language: Bangla (official, or called Bengali), English

Educational system: Based on the English system. Bangla is the medium of instructions at all levels of education; however, English is widely used at the higher level. Degrees are awarded with a ranking.

Degree: The combined bachelor’s and master’s degrees are considered equivalent to the U. S. bachelor’s degree. The Master’s degree is the minimum qualification for graduate admission with no advanced standing. Exception to this would be the Bachelor’s of Engineering and Bachelor’s of Technology.

BOTSWANA – The Republic of Botswana

Languages – English and Tswana are national languages. All Boers speak Afrikaans.

Educational system – The Ministry of Education is the governing body

Degrees – The bachelor’s degrees in Arts, Commerce, Education and Science are four-year programs. Postgraduate Diploma in Education is a one-year program requiring the Bachelor degree for admission. Master’s degrees in Arts, Education and Science are two-year programs.

Class	Description	U.S. Equivalency
A	First Class	A
B	Second Class/First Division	B+
C	Second Class/Second Division	B
D	Pass	C
E, F	Fail	F

Grades of 70%, Very Good, 2nd class 1st division, or higher may be considered “B or better”, however, please note that the grade of A is rarely given so the 60-69%, 2nd Class, 2nd Division, may be considered with other supporting factors. The grade of E is failing but a supplementary examination may be taken.

Recommendations and Comments

Accept only original transcripts and check very closely for discrepancies.

University of Botswana

BRAZIL – Republica Federativa de Brazil

Language – Portuguese

Educational system – There are three kinds of institutions of higher education in Brazil; federal universities, state universities and private universities. Public universities are better funded than private universities.

Degrees – The Bacharel is 4-5 years, the mestre or mestrado is 1-2 years after bacharel and is considered equal to a U.S. Master’s degree and the Doutor is completed two years beyond the mestre and may be comparable to a U.S. doctoral degree. The bacharel is considered the more prestigious of the undergraduate degrees. The Engenharia is usually a min. of 4 years. There are also licenciados or titulos (professional title such as engineer).

Grading	Numerical	Description	U.S. Equivalent
90-100	9-10	Excellent	A
75-89	7-8.9	Good	B
60-74	5-6.9	Average	C
Below 50	Below 5	Fail	F

Grades of 7, Good, or higher may be considered “B or better” grades.

Class ranking is very important; this class rank is often noted in letters of recommendation from professors.

Recommendations and Comments

The bacharel, licenciado or titulo requiring 4 or more years of study is the minimum requirement to enter a graduate program. Universities will not send the documents directly, the student must do that.

BULGARIA – Narodna Republika Bulgariya

Language – Bulgarian

Educational System – Government control over institutions of higher education in Bulgaria ended in 1990 so universities establish their own criteria for admission and graduation.

Degrees: Diploma of specialist awarded upon completion of 4-5 years of tertiary study, candidate of Sciences awarded after 3 years of study beyond the specialist diplom and doctor (doctorate), awarded after three years of study beyond the kandidat.

Grading	Numerical	Translation	U.S. Equivalent

Grades of Dobur, Good, or higher may be considered “B or better” grades.

Recommendations and Comments

The 5-year diplom is the minimum requirement for entering a graduate degree program. The Kandidat na naukite is considered more than a U.S. master’s degree but less than a U.S. Ph.D. The Doktor na naukite probably is equivalent to a U.S. Ph.D.

CHAD – Republique du Tchad

Languages – Arabic and French (Official)

Educational System – Education is based on the French educational system. The recognition body is the Ministère de l'Éducation Nationale

Degrees – Diplôme, licence and maîtrise. The diplôme is just 2 years of university study, the licence a further year and the maîtrise is awarded after 1-2 years of university study. As of 1998, the maîtrise was not yet offered at the University of Chad and students from Chad were traveling abroad to receive their advanced degrees.

COSTA RICA – Republica de Costa Rica

Language – Spanish

Educational system - there are three categories of post-secondary education: (1) pregrado is in reference to intermediate credentials and diplomas may be given, (2) grado is the first university credential and (3) postgrado or posgrado is graduate-level coursework. Degrees are awarded based on completion of a particular number of credit hours with a credit equal to 15 hours of classroom work and 45 hours of laboratory practice or field training.

Degrees – (1) diplomado, asociado or tecnico superior are pregrado diploma programs that usually require sixty (minimum) to ninety (maximum) units, (2) profesor is a three-year program training pre-school and primary school teachers, (3) bachiller universitario is the first university degree awarded (BU diploma), (4) licenciatura/licenciado is a 5-year program or is thirty-six units beyond the bachiller program. The maestria postgrado is approximately 2 years and requires a thesis for graduation. The doctorado requires 100-120 units and a thesis or project—it is usually a 3 or 3-1/2 year program.

FINLAND – Suomen Tasavalta-Republiken Finland

Language – Finnish and Swedish are both official

Educational System – There have been fairly recent overhauls of the higher educational system in Finland so look closely at the number of completed credits of study weeks. You could compare 1.5-2.0 Finnish study weeks to a three-credit course in the U.S. so roughly, students who have completed 120 Finnish study weeks may be considered for graduate study.

Degrees – Kandidatti is a first degree and maisteri is a second degree. There is no direct equivalent to the U.S. bachelor's degree, completion of the lisensiaatti degree can be considered as equivalent.

Grading	U.S. Equivalent
3	A
2	B
1	C
0	F

Please note that only passing grades are recorded on the transcripts, if a course is failed it may be retaken until satisfied with the grade.

Recommendations and Comments

The kandidaatti is equivalent to a U.S. bachelor's degree under the new system. Applicants under the old system would need to have the lisensiaatti or 120 Finnish study weeks to be eligible to be considered for graduate admission.

Educational System – Entrance to a university is based on completing the baccalaureate. The universities are advised by many different types of council.

Degrees

DEUG – awarded after two years of university study

Licence – awarded after one year of study beyond the DEUG = 3 years

Maitrise – awarded after one year of study beyond the licence and considered to be equal to a U.S. Bachelor's degree

Diplome d'etudes politiques – awarded by seven Instituts d'Etudes Politiques after three years of study after the baccalaureat. An intense degree is considered to be equal to the U.S. Bachelor's degree.

DEA – awarded after one year of study beyond the maitrise

DESS – awarded after one year of study beyond the maitrise

Diplome d'ingenieur – awarded by 4-year programs in engineering and are comparable to the B.Engineering in the U.S.

Doctorat de Troisieme cycle/doctorat de l'universite – represent training beyond the U.S. master's degree, should be evaluated individually.

Doctorat d'etat – is considered equal to the U.S. Doctoral degree.

GERMANY – Bundesrepublik Deutschland

Language – German

Educational System – Institutes of higher education consist of universities, technical universities and teacher training colleges.

Degrees

Each degree program is divided into two phases: Basic studies (grundstudium – four semesters) and Main studies (hauptstudium – 2-4 additional semesters).

Degrees earned in science, psychology and social sciences:

Vordiplom – 4 semesters

Diplom – 6-8 semesters

Degrees earned in humanities

Magister Artium – Zwischenprüfung after 4 semesters and Magister atrium after 6-8 semesters

Degrees earned in medicine/pharmacology, law and teaching

Staatsexamin – after 6-8 semesters

Promotion – german doctoral degree which requires 2-4 years beyond the degrees listed above.

HONDURAS – Republica de Honduras

Language – Spanish

Educational System – In 1989 Universidad Nacional de Honduras/UNAH was declared autonomous and was responsible for granting academic degrees from all Honduran institutions. There are four types of institutions providing higher education programs: (1) universities which are the highest level undergraduate and graduate institutions, (2) Institutes which offer concentrations usually in one or more areas and lead to the training of professionals, (3) schools which are responsible for just one academic concentration and have a training emphasis and (4) academies which offer vocational programs.

The unidad de medida academica or UMA is the “unit of academic measure and represents One hour of classroom work combined with two hours of homework. This unit regulates the different degrees offered.

Degrees – carrera corta is 80-100 credits and a two-year program; licenciatura is 160 or more credits; doctorado en medicina y cirugia is a minimum of 320 credits and is 6-8 years for medical training, teaching and research. The graduate level or postgrado degrees are the especialidad which is 1-3 years beyond the licenciado; maestria which is 1-1/2 to 2 additional years and the doctorado which is a minimum of two additional year’s duration.

IRAN – Islamic Republic of Iran

Language – Faris, Kurdish, Arabic and Azari

Educational System – Higher education in Iran is very established and is obtained through universities, colleges of technology and teacher-training centers. The secondary school leaving certificate (Diplom) and passing the national competitive examination are required for admission to higher education in Iran. An academic credit in Iranian higher education is equal to 6/7 of a U. S. credit.

Degrees – licence (Karshenas) is awarded after 4 years and is translated into a BA or BS. This degree awarded prior to 1964 is not acceptable. The karshenasi-arshad (used to be the fogh-license) is a two-year degree and is translated at MA or MS. The doctorate is awarded after the completion of 24 credits beyond the karshenasi-arshad and a dissertation is required.

ISRAEL – Medinat Yisra’el

Language – Hebrew, Arabic

Educational system: Military service is required in Israel so most students go straight into the military prior to university. Therefore they tend to be two to three years older than the average U.S. student. There are three types of institutions; universities, non-university institutions and regional colleges. There are approximately six research and teaching universities offering bachelors, masters and doctoral degree programs (see list below). Some of the non-university institutions of higher education have authority to award bachelor’s degrees in certain fields. The regional colleges do not offer degrees equal to U. S. bachelor’s degrees.

Please note that grading is severe and is not inflated.

Recommendations and comments

The bachelor’s 4-year bachelor’s degree is considered equivalent to a U.S. bachelor’s degree and most 3-year bachelor’s degrees are equivalent and adequate if going into the same field of study. The difference is that most bachelor’s degree programs at universities are 3-years of intensive study in a single or dual major. Four-year bachelor’s programs are in professionally oriented fields such as engineering and nursing.

LEBANON – Al-Joumhouriya al-Lubnaniya

Language – Arabic (official), French, English

Educational System – There are three ministries that are responsible; (1) Ministry of National Education and Sports, (2) Ministry of Culture and Higher Education and (3) Ministry of Technical and Vocational Education. Most higher education is based on the French structure.

Degrees – The following degrees are first-university degrees and should be considered equal to a U.S. bachelor’s degree IF they represent a minimum of four years of full time study: licence, bachelor’s degree diplome d’etudes superieures, or diplome in a special field. A three-year licence is not considered sufficient for graduate admission. Maitrise – a four-year maitrise is sufficient to be considered for graduate admission. The five-year maitrise could be looked at on a course-by-course basis as having transfer credit if it is in the same field of study. The following degrees are second level university degrees representing a minimum of two years of study beyond a 4-year, first-level degree and are considered equivalent to a U.S. master’s degree: Maagistiir, magistere, diplome d’etudes superieures, and diplome d’etudes approfondies.

MEXICO – Estados Unidos Mexicanos

Language – Spanish

Educational system: It is a centralized system and Mexican universities are not accredited but recognition is more of a legal standing than quality assessment. There are autonomous, state and federal public institutions. The bachillerato is required to enter university first year.

Degree: Licenciatura programs vary from 3-5 years. Holders are given the Licenciado or may have the title (titulo) of the profession. Maestria degrees are 1-2 years of tertiary study beyond the licenciatura and doctorado degrees are awarded. The Maestria may be considered comparable to a U.S. master's degree, the doctorado represents a year beyond the U.S. master's degree and sometimes may be comparable to a U.S. Ph.D.

MOROCCO – al-Mamlaka al-Maghreb

Language – Arabic, French, and Berber dialects

Educational System – The oldest university in the world, Quaraouiyine University was founded in 859 in the city of Fes. The educational system is modeled after the French system. Arabic and French are the languages of instruction. Holders of the secondary school leaving certificate (baccalaureate) are eligible to apply to a university.

Degrees – A certificate or diploma is awarded after each stage of completion. The licence is awarded after the second cycle of higher education (years of three and four). Since 1970 most of these degrees have been four-year degrees. The Certificate d'études approfondies (CEA) is awarded after one-year of study beyond the licence. Law, economics and social sciences awarded the certificate d'études superieures (CES). The Diplome d'études superieures (DES) is awarded after a minimum of two years beyond the CEA or CES and requires a defense and written thesis. The Doctorat d'Etat is considered equivalent to a U.S. Ph.D.

Educational system: University education changed with the 1993 Higher Education and Research Act. There are two types of higher education; the universities preparing students for scientific work in an academic setting and the hogescholen offering higher professional education concentrating on applied science and preparing them with specific skills they will need for certain professions.

Degrees: There are two different levels of advancement:

(1) The doctoraal programs, taking 4 years to complete and sometimes an additional 2 years. Graduates use the title doctorandus; engineering programs use the title Ingenieur and graduates of law use the title meester. (2) Post-doctoraal programs vary in length, from one-year teacher training programs to four-year research programs.

Higher professional education, Hogescholen (HBO), has several categories including (1) ingenieur for graduates of engineering, agriculture and environmental science and (2) baccalaureus degree earned by graduates of all other programs.

NIGERIA – Federal Republic of Nigeria

Language – English (official) Hausa, Yoruba, Ibo

Educational System – Higher education is in universities, technical colleges and advanced teacher-training colleges. Direct entry to a university requires completion of a combination of Ordinary and Advanced level courses and tests. Concessional entry requires an additional year of preliminary study to compensate for deficiencies in an applicant’s background.

Degrees – The bachelor’s degree is awarded after three to five years of study. The honours degree indicates greater achievement than a pass degree (course work is similar). The post-graduate certificates/diplomas that are awarded after one to two years of study beyond the bachelor’s degree should not be considered equivalent to a U.S. master’s degree. The master’s degree is awarded after one to three years of full-time study beyond the bachelor’s honours degree.

POLAND – Rzeczpospolita Polska

Language – Polish

Educational System – The university system in Poland is four to five years of study leading to the dyplom. Practical training is a part of the university curriculum.

Degrees – The dyplom indicating the title of magister is a first university degree and is equal to a U.S. bachelor’s degree, it is a four or five year program. It may be translated as “masters” but that does not mean it is equivalent to a U.S. master’s degree. The doctor nauk is considered a level beyond the U.S. master’s degree.

Educational system: Education has been rapidly changing to the U.S. model, 3-4 year bachelor's (bakalavr) degrees and 2-year master's (magistr) degrees are being implemented. The 5-year diplom is a first university degree and is considered equal to a U.S. bachelor's degree with no advanced standing.

Degrees:

The degrees are the diplom degree, kandidat nauk and the bakalavr and magistr. The diplom is the minimum requirement to enter a graduate program, the kandidat nauk is a first advanced degree and an applicant can enter a graduate program with advanced standing. The bakalavr and magistr are considered equal to the U.S. bachelor's degree and U.S. master's degree respectively.

Educational system: The universities are separately chartered and function autonomously.

Degrees

Bachelor’s degrees are four years, with the exception of the Engineering degree and it is usually five years. Master’s degrees and Ph.D. degrees follow the U.S. models.

Grading	U. S. Equivalent
4.0	A
3.0	B

SOUTH AFRICA – Republic of South Africa

Language – Multi-lingual including Afrikaans and English

Educational System is modeled after the British system.

Degrees – bachelor’s degree awarded; (1) after three years of study in commerce, nursing, general sciences and social science, (2) after four years of study in agriculture, domestic science, education, engineering, fine arts, music, (3) after five years of study in architecture and veterinary medicine. Master’s degree awarded 1-2 years beyond the bachelor’s degree and doctorate awarded after 1-4 years beyond the master’s degree (this generally represents 18-21 years of education).

Grading	Numerical	U. S. Equivalent
First Class	75-100	A
Second Class I	70-74	B+
Second Class II	60-69	B
Third Class	50-59	C
Fail	0-49	F

70% or better would be the recommended equivalent for B or better admission. 60-69% could be considered unconditionally with high GREs and other supporting rational.

Recommendations and Comments

A university degree representing a minimum of 4 years of tertiary study is the minimum requirement to be considered for graduate admission. The Baccalaureus Technologiae issued by the Technikon, replaced the National Higher Diploma in the mid 1990s. It consists usually of four years of degree study, which includes one year of non-academic industrial attachment. These are not considered equivalent to U.S. bachelor’s degrees as they would be considered as representing completion of three years of university-level study plus one year of non-credit practical training.

SWEDEN – Konungariket Sverige

Language – Swedish

Educational System – University colleges offer undergraduate studies with a limited number of first-degree programs. Universities offer a wider range of studies and also offer graduate program and research opportunities. The academic programs are a system of “points” with an academic year of full-time study giving forty points. Instruction is in the form of lectures and seminars.

Degrees – hogskoleexamen is a first degree awarded after completion of at least eighty points but no more than one-hundred-and-twenty points. The kandidatexamen which is translated as the bachelor of arts or science, is awarded after one-hundred-and-sixty points and represents four years of tertiary study. The yrkesexamen is a professional degree awarded in specific professions such as medicine, fine arts, teacher training and engineering. These are usually one-hundred-and-sixty to two hundred points. The licentiatexamen is awarded after approximately two years of study beyond the first university degree. The doktorexamen is awarded after four years of full-time study beyond the first university degree.
