The Institute for Learning and Teaching (TILT)

Debora A. Colbert, Ph.D., Director of Professional Development
Our focus at TILT is on Faculty and Student Success

Teaching Effectiveness Framework provides researched strategies in the Seven Domains that we’ve identified as crucial areas for student success in the classroom. The framework offers CSU faculty a common language to analyze and implement best practices and encourages instructors to find their own path to effective teaching and ultimately, student success.
Support for Faculty and Staff
TILT and its partners provide direct support for faculty and staff with programs that strengthen professional development in areas related to learning and teaching, scholarly inquiry and innovation in learning and teaching, course design and development, and visibility of teaching excellence at the University.

Support for Students
TILT and its partners provide direct support for undergraduate and graduate students with programs that strengthen learning communities.
Learn, Reflect, Practice

- Determine appropriate goals for student learning outcomes.
- Understand and work effectively with diverse student populations.
- Design courses, including selecting and sequencing course materials, and developing course assignments.
- Employ evaluative procedures which validly assess student learning.
- Use innovative pedagogical approaches, such as teaching with technology, optimizing available Learning Management Systems, practicing sustainable service-learning strategies, and so on.
- Reflect on and revise your pedagogical practices throughout your teaching career.
